

Hostile environment luminaire series PFN ..., PFN-T16 ...

Design: Single luminaire, housing constructed of glass fibre reinforced grey polyester. The lower part of the luminaire is fixed to the top part with plastic screws. PFN series luminaires are double insulated, protection class II, dust tight and jet proof (IP65). With low loss ballasts (VVG), 230 V, 50 Hz, or electronic ballasts (EVG) 220-240 V, 0/50-60 Hz

Mounting: Luminaire suitable for ceiling mounting, horizontal or vertical wall mounting only possible in consultation with the manufacturer.

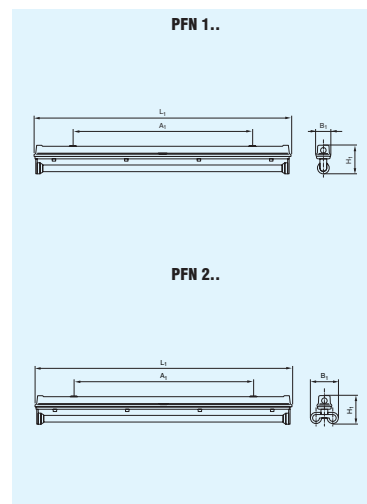

Special features: PFN series luminaires are double insulated, dust tight and jet proof.

Note: The seals for the lamp are made of material containing silicone.

PFN ...
For T26 lamps

PFN-T16 ...
For T16 lamps

Voltage: 230V/50Hz
Protection class: IP 65
